

**Seminario Internacional Fundación Botín y Rosenberg International Forum  
sobre Gestión de la sequía y la escasez del agua en California y España.  
29 de enero de 2015 en Madrid**

# **Some highlights to manage future droughts**

*Dr. Joan Girona  
Dr. Jordi Marsal  
Efficient Use of Water Programme  
IRTA*

## **Some highlights to manage future droughts**

Fundación Botín  
Rosenberg International Forum  
29 de enero de 2015 en Madrid

- **It's a priority to convince the society about the importance of water to produce food.**
- **With small water savings it could be possible to manage water restrictions in agriculture.**
- **There is a great potential for improvement in water productivity.**
- **Infrastructure is more important than management.**
- **Agricultural water doesn't move money but many misgivings in most part of the citizenship**
